PROFILE

Greetings of the day! I am Paras Adhikari, a MERN stack student who has recently completed a MERN stack development course at Sipalaya Info Tech. Through this course, I have gained skills in building full-stack web applications using MongoDB, Express.js, React, and Node.js. I am passionate about coding and enjoy creating modern, responsive, and user-friendly applications. I am eager to expand my knowledge and apply my skills to real-world projects.

EDUCATION

08/2024 – 12/2024
Koteshwor, Kathmandu

MERN Stack Development Training
Sipalaya Info Tech

07/2022 – 06/2024
Tikapur 01- Kailali, Nepal

+2 Management (Computer Science)

SKILLS

Frontend: HTML, CSS, JavaScript, React.js

Tools : Postman, Visual Studio Code

Backend : Node.js, Express.js
Datebase : MongoDB
Version Control : Git, GitHub

Basic Programming : C and C++

PROJECTS

12/2024 – 01/2025

Educational Platform

Project Overview :
Develop a scalable platform using MERN stack (MongoDB, Express.js, React, Node.js) for managing educational opportunities. Users include Admins, Recruiters, and Participants with role-based access and features. Participants can browse, apply, and submit work for hackathons, quizzes, and job opportunities. Recruiters can create opportunities, review submissions, and provide feedback. Admins oversee platform activity, manage users, and generate reports. Key features include authentication, user profiles, submission tracking, and leaderboards. Notifications and analytics provide insights into participation and performance. The platform will use MongoDB for data storage and JWT for secure authentication. Deployment will be on cloud platforms like Vercel, Netlify, and MongoDB Atlas. Additional features include real-time updates, email alerts, and social media shari

10/2024 – 11/2024

E-commerce(1)

- **Frontend:** Developed a responsive and user-friendly e-commerce platform using React.js and Tailwind CSS.
- **Backend:** Implemented essential authentication features, including user login and signup functionality.

09/2024 – 09/2024

E-commerce(2)

- **Frontend:** Created an engaging design for a food service platform entirely using React.js.
- **Features:** Focused on clean UI design and interactive components for an intuitive user experience.
- **Highlights:** Demonstrated strong skills in React component-based development and responsive design.

INTERESTS

- Web Development and UI/UX Design.
- Exploring new programming technologies

LANGUAGES

- Nepali
- English
